Lights & tower

- Four 1000W metal halide lamps
- High-intensity parabolic reflectors increase illumination and create a brighter, more uniform light pattern
- Each fixture can be aimed independently without the use of tools for greater flexibility and faster setup
- Telescoping tower extends to 30 feet and rotates 360 degrees
- Lights operate at any height, preventing the trailer from having to be moved frequently

Engine

- Rugged, low-RPM diesel engine and high-quality four-pole generator for trouble-free performance and increased longevity
- Glow-plug pre-heat system, plus engine block and oil pan heaters, improve starting and service life in cold weather
- Automatic engine shutdown system protects engine from damage due to low oil pressure and high coolant temperature
- 30-gallon fuel tank provides extended runtimes of 60 to 70 hours between refuels

Enclosure & trailer

- Powder-coated steel enclosure for durability and weather resistance
- Hinged top panel and side doors for easy access to engine, generator, and electrical components
- Control panel features an elapsed hour meter, power outlet, and circuit breakers for on/off functionality and protection
- Combo type tow hitch compatible with 2-inch ball and 3-inch pintle hook towing systems.

Specifications

Wattage	1000W per lamp
Luminosity	Up to 0.5 fc at 7.5 acres
Output	6 kW
Engine speed	1800 rpm
Generator type	Brushless
Fuel capacity	30 gallons (114 L) diesel
Fuel consumption	0.44 gph (1.67 lph)
Operating dimensions	112" x 127" (W x L), 30' max height
